RELATING TO THE  
2021  
OWNERSHIP REVIEW  
OF  
SHARES IN NETWORK  
WAITAKI LIMITED**

# Waitaki Power Trust

100% Shareholder of Network Waitaki Limited

## SUBMISSION FORM

**If you want to have your say on the Review of Ownership of shares in Network Waitaki, please complete and return this submission form.**

Name Mr Malcolm John McKenzie

Mr/Mrs/Ms/Dr

After investigating a number of options for the ownership of shares in Network Waitaki Limited and engaging Deloitte to prepare an analysis of the Company's performance, the Company's Directors prepared a report for the Trust. The Directors unanimously recommended that Consumer Trust Ownership should continue. The full report and the supporting Deloitte report is available from Network Waitaki Limited, 10 Chelmer Street, Oamaru, District Libraries or from the Waitaki Power Trust website: [www.waitakipowertrust.co.nz](http://www.waitakipowertrust.co.nz)

Your opinion as a Consumer is important and you have the opportunity to make a submission using this form. Submissions are to be forwarded to the Waitaki Power Trust, C/- PO Box 147, Oamaru, 9444 or emailed to [waitakipt@gmail.com](mailto:waitakipt@gmail.com) by **Friday, 10 September 2021**.

Ownership options considered by the Directors were as follows: (please tick your preferred option)

- 100% Consumer Trust owned – the status quo
- Joint venture
- Merger
- Part distribution or sale of minority stake
- 100% distribution or sale of shares
- Asset sale and conversion of Trust to community trust

Please add any further comments:

Please do not change our ownership as it works well and any changes will result in higher charges less services and job losses. Although it appears we are in a growth situation the reality is a increasing number of people on fixed income, job losses at local meat plant, house prices more unaffordable, particully to our first home buyers.

I am concerned that the closing date to my knowlege has not been extended given the lockdown has made it difficult for many consumers to have fair and imformed partipation.

I am dissapointed that our local newspaper has not published on the front page or any page this important issue this has not been the case in the past!

I would like to speak to my submission (please tick)

yes  no

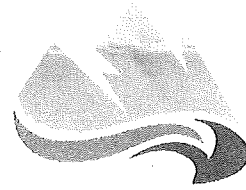

Signed: M.G. McKenna

Date: 07-Sep-2021

Submissions will be published as part of the public consultative procedure. If you wish your personal contact details to remain private, please tick the box.

Ownership options considered by the Directors were as follows: (please tick your preferred option)

- 100% Consumer Trust owned – the status quo
- Joint venture
- Merger
- Part distribution or sale of minority stake
- 100% distribution or sale of shares
- Asset sale and conversion of Trust to community trust

Please add any further comments:

I recommend that the status quo should remain. That ensures that annual dividends remain in the community. A sale is a 'one off' event and is rather unfair. People like my wife and I have only been in Oamaru for 3 years (we shifted from Palmerston North) whereas, even in the short time we have been here, we know of people that have been here for 40 plus years and have moved out of the Waitaki catchment area. Why should we be opportunistic and get a cash payout through a sale. Makes far more sense that the assets are retained for the benefit of existing consumers to receive annual payments as well as future consumers. Any form of sale seems to be a very 'short sighted' move. Look at the Oamaru Licensing Trust and how it continues to put money back into the community - the Waitaki Power Trust should do the same.

I would like to speak to my submission (please tick)  yes  no

# Waitaki Power Trust

100% Shareholder of Network Waitaki Limited

## SUBMISSION FORM

**If you want to have your say on the Review of Ownership of shares in Network Waitaki, please complete and return this submission form.**

Name... Lindsay McKenzie ..... Mr ~~Atkinson~~

After investigating a number of options for the ownership of shares in Network Waitaki Limited and engaging Deloitte to prepare an analysis of the Company's performance, the Company's Directors prepared a report for the Trust. The Directors unanimously recommended that Consumer Trust Ownership should continue. The full report and the supporting Deloitte report is available from Network Waitaki Limited, 10 Chelmer Street, Oamaru, District Libraries or from the Waitaki Power Trust website: [www.waitakipowertrust.co.nz](http://www.waitakipowertrust.co.nz)

Your opinion as a Consumer is important and you have the opportunity to make a submission using this form. Submissions are to be forwarded to the Waitaki Power Trust, C/- PO Box 147, Oamaru, 9444 or emailed to [waitakipt@gmail.com](mailto:waitakipt@gmail.com) by Friday, 10 September 2021.

Ownership options considered by the Directors were as follows: (please tick your preferred option)

- 100% Consumer Trust owned – the status quo
- Joint venture
- Merger
- Part distribution or sale of minority stake
- 100% distribution or sale of shares
- Asset sale and conversion of Trust to community trust

Please add any further comments:

I strongly oppose any change to existing Trust ownership or annual consumer discount. The annual discount is a great help to low income households

and worry about some people's hidden agenda to take away  
I would like to speak to my submission (please tick)  yes  no

Please add any further comments:

The Waitaki Power Trust have demonstrated a hugely successful model in the distribution of energy [electric power] to its consumers. ....

The ethos of local solutions to local issues has proven a winning formula. To change this would, in my opinion represent a risk that consumers would not wish to encounter. ....

The direct rebate of profit, is the best option to consumers is the most transparent and efficient mechanism to redistribute any surplus after the entity has provided for both maintenance and expansion. ....

- 100% Consumer Trust owned – the status quo
- Joint venture
- Merger
- Part distribution or sale of minority stake
- 100% distribution or sale of shares
- Asset sale and conversion of Trust to community trust

**Please add any further comments:**

I support the status quo and want Waitaki Power to remain in local community ownership. Designed to serve, this ownership model provides many tangible benefits to the local community. Having direct connection and accountability to its stakeholders, the Trust is a reservoir of local knowledge, provides local employment and returns its profits to the community. These benefits are ongoing and will continue to provide for the community in ways which will far outstrip any short term, one-off benefit, which might accrue from a full or partial sale of the Trust. Finally, it is obvious that the Electricity sector is going to continue to play an on-going and significant part in our lives. The Trust structure enables communities to be active participants, rather than passive consumers, in the sector.

Please add any further comments:

The current ownership status really needs to remain as it contributes greatly to the Waitaki ..... community. Being community owned ensures a key focus locally and a responsiveness to the needs of the district e.g. provisions for irrigation, EV sites, etc. The network is designed and managed for the best interests of Waitaki. All profits are returned to the community and NOT ..... siphoned off to some large external entity. The current setup is absolutely the best option for Waitaki. It also provides not only jobs but highly skilled jobs, and attracts highly skilled resources ... to our local economy. It also allows for a real focus on using the wider community businesses.

**Please add any further comments:**

I would urge the retention of this valuable asset in community hands. We are well served by: an approachable trust and a local, reliable company, both of whom have the community interest at heart. The returns to the Community and the Customers demonstrate this. Any profit from this well-resourced and reliable company are returned to the community be it by ways of sponsorship, grants or discounts but always enough is retained to ensure that we have a reliable, well maintained network with an eye to future requirements. All wages and the majority of purchases are a benefit to the local community. Too often I have seen other communities divest themselves of ownership for a short term gain but the long term serves them very poorly.

As the Roading Asset Engineer, I make this submission on behalf of the Waitaki District Council, ... in the area of street lighting. There are just over 2500 streetlights in the Waitaki District of which 2000 are Council owned lights on local roads and 500 are on state highways which we manage under delegation. In 2016, Council began the streetlight upgrade from High Pressure Sodium to LED. The state highways were completed first and those on local roads were completed subsequent to that with all installations complete in 2019.

The move from HPS to LED lights has been significant as the annual power bill for all lights was in the order of \$230,000. With the change to LED streetlights, the power bill has dropped down to \$150,000.

As the Roading Asset Engineer, I make this submission on behalf of the Waitaki District Council in the area of street lighting. There are just over 2500 streetlights in the Waitaki District of which 2000 are Council owned lights on local roads and 500 are on state highways which we manage under delegation. In 2016, Council began the streetlight upgrade from High Pressure Sodium to LED. The state highways were completed first and those on local roads were completed subsequent to that with all installations complete in 2019.

The move from HPS to LED lights has been significant as the annual power bill for all lights was in the order of \$230,000. With the change to LED streetlights, the power bill has dropped down to \$180,000 and that is with an improved level of service on the state highways. The nett saving for Council has been in the order of \$50,000 per annum which has allowed that money to be targeted to other roading maintenance and safety improvements.

This saving has been made possible merely by the fact that Network Waitaki is run as a Consumer Trust. Other Councils have been less fortunate and have found their line charges increased significantly resulting in a lesser saving or not at all.

Ownership options considered by the Directors were as follows: (please tick your preferred option)

- 100% Consumer Trust owned – the status quo
- Joint venture
- Merger
- Part distribution or sale of minority stake
- 100% distribution or sale of shares
- Asset sale and conversion of Trust to community trust

Please add any further comments:

Keep Network Waitaki Ltd Consumer  
Trust owned by the shareholders. As a superannuitant  
9 widow I appreciate the amount I receive from the  
dividends, others like myself on a single income would appreciate it also

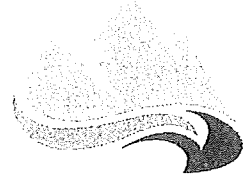

I would like to speak to my submission (please tick)  yes  no
